

Ultimate Guide to Maintaining a Fresh Home Between Cleans

By CitrusClean

1. Daily Freshness Tips

- Open windows daily for at least 10 minutes to allow air circulation.
- Shake out sofa throws and fluff pillows to reduce dust.
- Wipe high-touch areas (like door handles and light switches) with a natural citrus spray.

2. Weekly Surface & Spot Checklist

- Vacuum high-traffic carpet areas and under furniture.
- Spot-clean small stains with a mix of white vinegar, warm water, and a drop of lemon oil.
- Use a handheld vacuum on upholstered furniture, especially in pet-friendly homes.

3. Natural DIY Freshener Recipes

Lemon Fresh Spray:

- 1 cup water
 - 1 tbsp baking soda
 - 10 drops lemon essential oil
- Shake in a spray bottle and lightly mist sofas, curtains, and rugs.

Citrus Sink Scrub:

- 1/2 cup baking soda
 - Juice of half a lemon
- Use for sinks and surfaces to deodorise naturally.

4. Preventative Cleaning Hacks

- Use door mats inside and outside to reduce dirt tracked into the home.
- Add protective covers to your sofas and rotate cushions weekly.
- Apply CitrusShield (or similar fabric protector) after each deep clean to extend results.

5. Monthly Maintenance Planner

Create a monthly checklist to rotate:

- Deep vacuuming all carpets
- Flipping or rotating mattresses
- Cleaning under sofas and large furniture
- Washing curtains or steam refreshing them

Bonus: When to Book Eco-Friendly Carpet & Upholstery Cleaning

If your carpet or upholstery shows signs of wear, unpleasant odours, or stubborn stains, it may be time for a deep refresh. **Mention this guide and receive 10% off your next eco-friendly carpet or upholstery cleaning with CitrusClean.**
